DETAILED ACTION

1. The Election/Restrictions of the last Office action in paper No. 6 has been withdrawn. However, in view of further search, the new Election/Restrictions has been made.

Election/Restrictions

2. Claims 1-30 directed to semiconductor device are restricted as follows:

This application contains claims 1-30 directed to the following patentably distinct species of the claimed invention:

- a) Species I: Claims 1, 3, 6-7, 10-11, 16 and 18: A method for forming a semiconductor device wherein the channel region contains hydrogen.
- b) Species II: Claims 2, 4-5, 8-9, 12-15, 17 and 19-20: A method for forming a semiconductor device wherein the channel region contains halogen.
- c) Species III: Claims 21-24: A method of manufacturing a semiconductor device that including the particularly wavelengths of 532 nm or 355 nm of CW laser.
- d) Species IV: Claims 25-30: A method of manufacturing a semiconductor device that including the amorphous semiconductor film with a second and third harmonic of a CW laser.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, non-claim is generic.

Art Unit: 2814

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 2814

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theresa T Doan whose telephone number is (703) 305-2366. The examiner can normally be reached on Monday to Thursday from 8:00AM - 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on (703) 308-4918. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 308-7722 for regular communications and (703) 308-7724 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
